

Honors Focus Area Reflection

1. Rank the Focus Areas in order of your current interest:

Research _____1_____

Design _____3_____

Entrepreneurship _____2_____

Global Business/Operations _____4_____

Public Service _____5_____

2. How did you decide which choice to rank as #1 above?

I have already done some research before and I found it to be useful and engaging. I also have interests in graduates studies so getting some research experience under my belt would be useful for applications.

3. What Focus Area(s) would you like to learn more about?

I would be interested in hearing more about research opportunities that go on during the year as opposed to over the summer.

4. For your Honors Capstone Experience, would you prefer to write a thesis or complete a project with a presentation? Why would you prefer one over the other?

I would be more interested in completing a project with a presentation as I think that has more similarity to my industry interests rather than a theoretical investigation. Completing a project can be used to demonstrate skills to an employer better than a thesis in my opinion.

5. Brainstorm 2-3 ideas for your Honors Capstone project. What type of project would be most interesting to you? What sort of project/thesis experience would be beneficial to you in the future?

-A new version of Wolverine Access

-A research project with a professor

I think an experiential learning project would be the most beneficial. A project where I can investigate a

novel idea and put my education to practice.
